Dear Hiring Manager,

My name is **Ravi Silva**, and I am a **Software Quality Assurance Analyst** with over three years of experience in technologynearly all focused on software quality and testing. I hold a **Bachelor's Degree in Systems Analysis and Development**, along with **two Postgraduate Diplomas** in **Software Engineering (Quality & Testing)** and **Frontend Development**.

My career began in technical support and frontend development, before I found my true professional focus in **Quality Assurance**. Since then, I've gained solid experience across **manual, functional, regression, and automated testing**, working with tools such as **Cypress (JavaScript)**, **Selenium WebDriver (C#)**, **Postman** for API testing, and **SQL** for database validation. I've also worked within **Agile teams** using **Jira** and **Azure DevOps**, developing a strong end-to-end understanding of the **software development lifecycle** and the value of delivering reliable, user-focused products.

In **September 2025**, I began a new chapter by relocating to **Ireland** for a long-term English and cultural exchange programme. Over recent years, I've studied English intensively with native teachers (currently taking five conversation classes per week), reaching a **B2 level** that allows me to communicate confidently in professional environments. My goal is to achieve full fluency and build a long-term career within Ireland's technology sector.

I am currently based in **Dún Laoghaire–Rathdown** and available for **onsite, hybrid, or remote roles**. I also welcome opportunities with **visa sponsorship** to transition from a student visa (Stamp 2) to an employment permit (Stamp 1).

I'm a **detail-oriented, organised professional** with a strong passion for **quality, collaboration, and continuous improvement**. I would be delighted to contribute my technical skills and proactive mindset to your team.

Thank you for considering my application. I would appreciate the opportunity to discuss how my experience can support your organisation's success.

Kind regards,
Ravi Silva
