Summary

Test Engineer with **3+ years of experience** in software quality assurance, including **manual and automated testing** across **web and backend systems**. Currently working in Ireland, contributing to enterprise-level applications at Softworks, with exposure to both **functional and non-functional testing**, including **performance testing** (baseline, capacity, endurance, and spike). Strong experience in API testing, SQL validation, and test automation using Cypress (JavaScript) and Selenium WebDriver (C#). Background in financial and banking systems, working in high-reliability environments. Focused on delivering reliable software and continuously developing expertise in performance testing and scalable systems.

Education

- **Study Programme - General English** | Active Language Learning, Dublin, Ireland **(09/2025 - 03/2026)**.
 - **Postgraduate** in Frontend Development | Northern Paraná University, Unopar **(09/2024 - 03/2025)**.
 - **Postgraduate** in Software Engineering with an Emphasis on Quality and Software Testing | Anhanguera Educacional **(11/2023 - 08/2024)**.
 - **Graduated** in Systems Analysis and Development | Unifor - University of Fortaleza **(06/2020 - 06/2023)**.
-

Professional Experiences

Senior Software Test Engineer | Softworks | 04/2026 – Present

- Working on enterprise workforce management systems used across Europe and North America
- Performing functional and non-functional testing on business-critical applications
- Supporting performance-related testing activities, including baseline, capacity, endurance, and spike testing
- Validating system behavior under different conditions to ensure reliability and stability
- Collaborating with cross-functional teams to support software quality and continuous improvement

Mid-Level Quality Assurance Analyst | Fitbank | 10/2024 - 09/2025

- Worked on financial and corporate banking systems in high-reliability environments
- Validated critical business flows and supported automated testing initiatives
- Developed automated tests using Selenium WebDriver (C#)
- Performed functional, regression, and API testing using Postman
- Validated data integrity through SQL queries
- Collaborated with cross-functional teams in an international context
- Managed test activities and defects using Azure DevOps

Junior Software Quality Analyst | Polibras Software | 06/2023 – 07/2024

- Ensured the quality of web and mobile applications
- Conducted functional, regression, and exploratory testing
- Created automated tests using Cypress (JavaScript)
- Performed API testing with Postman
- Validated data using SQL (PostgreSQL and SQLite)
- Created and maintained test cases and defect reports
- Worked using Agile methodologies (Scrum) and Jira

Software Quality Analyst Trainee | Polibras Software | 10/2022 – 06/2023

- Supported QA processes for web and mobile applications
- Executed manual and exploratory testing
- Performed API testing using Postman
- Validated data in SQL databases
- Created test cases and bug reports
- Used Jira for task tracking in Scrum environment

Additional Experience

- Frontend Web Developer Trainee (Volunteer) | Levoo Mercado
 - Customer Support Trainee | GR Negócios
-

Languages

English – Professional Working Proficiency (B2)

Portuguese – Native

Hard Skills

Testing:

- Manual Testing (Functional, Regression, Exploratory)
- Test Planning and Execution

Test Automation:

- Cypress (JavaScript)
- Selenium WebDriver (C#)

API Testing:

- Postman (REST APIs)

Performance Testing:

- Baseline Testing
- Capacity Testing
- Endurance Testing
- Spike Testing

Database:

- SQL (PostgreSQL, SQLite)

Tools & Processes:

- Jira, Azure DevOps.
- Agile (Scrum, Kanban)

Version Control:

- Git, GitHub, Bitbucket

Frontend Knowledge:

- JavaScript, HTML, CSS
- Basic Angular and React
